Experience

Kcc Property Holdings Inc. General Santos City

MIS Oracle Finance Junior Application Lead

2020 - Current

Junior Full-Stack Developer specializing in building responsive, data-driven web applications using Vue.js, Node.js, Tailwind CSS, and MySQL. Actively leverages AI-powered development tools to accelerate application design, coding, debugging, testing, and documentation. Experienced in developing REST APIs, authentication systems, and intuitive user interfaces. Strong background in systems support and SAP environments (FI/MM/Inventory), with foundational knowledge of ABAP. Detail-oriented, fast learner, and effective communicator with solid customer-service experience. Continuously expanding expertise in modern web architecture, automation, and AI-assisted development.

Highlighted Project Experience

Product Ordering Web Application (Personal Project)

Tech: Vue.js, Node.js, MySQL, Tailwind CSS

Built customer-facing product catalog, cart, and checkout flow

Developed admin dashboard with product and order management

Implemented authentication system and responsive UI

Optimized user experience with clean component structure

Used AI tools for architecture planning, debugging, and documentation

AI-Assisted Development

AI-powered code generation and debugging

Automated documentation and unit test drafting

Rapid prototyping and feature planning with AI

School Photojournalist

Freelance / Independent Contributor

2016 - 2017

Covered campus events and student activities through visual storytelling. Captured and edited high-quality photos for school publications, conducted interviews, and collaborated with editors to meet publication deadlines.

Kcc Property Holdings Inc. General Santos City

Merchandising Data encoder

October 2019-2020

- Encode item.
- Make sure item are correct
- Manages items from suppliers and from the buyer

Freelance Video and Photo Editor

2016-2019

- Editing videos and photos for events such as Debut, Birthdays and Weddings. As a freelancer, I communicate with the events host or producer to ensure quality output for the clients.

Private Tutor

2019-2023

- Teaching student base on United State ages from 6-15 years old. As a tutor or teacher I ensure that my student will not just learn about school but also in life. I teach English, History, Basic Math, Science and Arts.
